

## SHIP-WRECKED

You are lost at sea. Due to a fire of unknown origin your ship caught fire and has been destroyed. The ship is now slowly sinking. Your precise location is unknown, but you know that you are roughly 500 nautical miles (roughly a 1000 km) southwest of the mainland.

Below you have a list of items that have survived the flames. Apart from these items you have a dinghy (a small boat) and oars. The only things that you have in your pockets are small change and cigarettes and matches.

Your task is to make a priority list of the fifteen items you have based on their importance. Give number 1 to the most important item, give number 2 to the second most important and so on until number 15 which you give to the least important item.

<b>My priority</b>	<b>Group's priority</b>	<b>Item</b>
		a sextant
		a small mirror
		a container with 25 liter drinking water
		a mosquito net
		a unit of Emergency Rations
		a Map over the Pacific Ocean
		a life vest
		a ten liter container containing oil and gasoline
		a small radio
		a harpoon
		10 square meters of plastic film
		1 liter of 80% Rum
		5 meters of nylon rope
		Two boxes of sweets
		Fishing equipment
